Projects :
- EBMIS desktop application
- E-trade web application
- Ultimate Web Application
- online trading Mobile application

TEA Computers   JUN2018

Software Testing Instructor

Software Testing Instructor at UTW (university to work) program.

Education

Bachelors of Computer and Information   2014 — 2017

Helwan University

Good estimation

Graduation project: Raptor(Smart Toy)
Android Application with hardware chip: control the RF of the toys with the application on mobile phones indoor and outdoor without using remote control
Grade: Excellent
Tools: Hardware(Arduino Uno-Relays- Transistors-Wifi module-Ultrasonic-LM35-Car toy), Software(Arduino- Lua editor-Android studio)

Qualifications

- (Manual - Functional - Regression - Smoke - User Acceptance) Testing types
- Experience with testing (Mobile Apps - Web Applications - Desktop Applications)
- working with restful API testing manual using postman and automation using rest-assured
- writing automation mobile scripts using Appium and web using selenium with java
- SQL Server, Toad "Oracle"
- Excellent knowledge about software testing tools (Jira - ALM tool, Test Rail)
- Software Configuration management (Git - GitHub)

Courses and Certificates

- Software Configuration management with Sprints School - Nov2020
- Automation training using Java by Amr Elsamdisy - May2019
- Agile Fundamentals (ICAgile - ICP) - Feb 2019
- Agile testing advanced (ICAgile - ICP) - Mar2019
- ISTQB Certified Tester Foundation Level - Oct 2017
- ISTQB Agile Tester Certified - Apr2018
- Big Data Training - Jul 2017 (Basic of Big data, Big data tools, and deployment platforms)
- Microsoft assembly program | Microsoft Egypt App Factory - Jun 2015 (developing windows8.1 and windows phone application)

Soft Skills

- Interactive and flexible to learn new technologies and languages
- I work effectively with teamwork
- Good style under work pressure
- I have the passion to work and learn
- Attention to details

language

- Arabic:

Mother tongue

- English:

  Fluent
